

Guideline for efficient Meeting Scheduling and Admin Coordination

Dear Team,

I hope you're all doing well.

To streamline the process of organizing meetings, giving customers the best iSOFT experience and ensure everything runs smoothly, please follow the steps below whenever you plan to schedule a meeting involving external guests/customers and/or requiring room bookings:

- 1. Forward Meeting Request to Admin**

Once you've finalized the need for a meeting, please forward the meeting request along with room allocation to me at the earliest.

- 2. Include Key Information**

In your email, kindly include the following:

- **Date and time** of the meeting
- **Duration**
- **Number of attendees**
- **Name(s) of guest(s)** (if any)
- **Purpose of the meeting**
- **Preferred meeting room** (if applicable)

- 3. Refreshments or Lunch Requirements**

If you require any refreshments or lunch arrangements, please specify the type and quantity including dietary restrictions so that it can be arranged in advance. Also, indicative time for refreshments should be included.

- 4. The visiting person's email and contact number**

For convenience, the visiting person's contact number and email should be included for reaching out in advance for parking arrangements etc.

This process will help ensure that guests are welcomed appropriately, meeting rooms are booked on time and all logistical needs are taken care of.

Feel free to reach out if you have any questions or need assistance with the process.
